### **REASONS FOR ALLOWANCE**

The following is an examiner's statement of reasons for allowance: newly presented claims 96-129 are drawn to subject matter noted as allowable in the previous Office Action, if the claims from which they were derived were written in independent form incorporating the material of the dependent claims with the claims from which they depended. The claims, as filed presently, incorporate the patentable material. No prior art has been found, nor presented, that either teaches or fairly suggests the production of the processable rubber compositions comprising a cured fluorocarbon elastomer dispersed in a matrix comprising a thermoplastic material, as recited in the broad claims 96, 97, 108, 109, 119, or 120. Since there are no other outstanding issues with regard to the clarity or enablement of the claims, these claims are deemed to contain allowable subject matter.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
